Chemistry that helps.

PTFE DRY LUBRICANT

Spirit 25 s a dry lubricating PTFE spray

- suitable for lubricating machinery for production of plastic, plugs, car doors, gaskets and other parts bearing tension
- to be used for lubricating locks and other mechanisms, where the use of dry lubricant is needed
- it does not contain oily substances
- it forms a compact, dry, white film facilitating slide resistant to pressure and high temperatures (up to 300 °C)
- it does not lose properties in sour and alkaline environment
- good antiadhesive qualities with plastic material
- it does not attract dust

Directions:

Shake well. Spray the surface from 15 cm distance, wait a few minutes.

Package:

volume: can, spray 400 ml

1 box = 12 cans

box weight: 4,85 kg

box sizes: 20,5 x 27,5 x 21,5 cm

Application method:

universal professional
